## CAVE-IN-ROCK MINING CO.

**Lose their Big Separating Mill by Fire Saturday. Machinery Badly Damaged.**

The big mill at the Cave-in-Rock mines was destroyed by fire Saturday at just about night. The night was growing dark and the reflection from the clouds illuminated the vicinity for quite a distance. It is to be regretted that this accident occurred, because quite a number had so located themselves that they were wholly dependent upon their connection with the mines for a living. The mines were in full blast before the fire. So many reports have been given out about its cause that none will be given here. Every piece of machinery except the air compressor was ruined either by the fire or the explosion.

More galena was being gotten out this past week than had been in the history of the mines. A drift had been made to northwest into a 40 foot vein of pure galena. These parts are similar to those of the other mines along Lead Hill. The lead from these mines is ground and put into small sacks for shipping. A number of teams are engaged in hauling this mineral to the smelter here at Cave-in-Rock.

There was some talk of building a road from the Cleveland and Illinois Mining Company's mine to this one when that mine was in operation.

About that time the Ohio river was sounded by a railroad company, presumably for the purpose of doing a railroad between Harrisburg, Ill., and Marion, Ky. If this all were run through by Lead Hill it would get enough freight in ten years from the mines to pay for it, to say nothing of the other freight.

The Ohio river has a natural embankment of lime rock on the Illinois side and it is only about a mile from the Kentucky side to a sufficient elevation to throw the road above the high water mark. The people of Marion county should do all in their power to encourage a railroad to come through here. It would advance the worth of land. Already a part of the land has advanced because of the mineral under it, but it is turning loose at too low a price.

Some of the land that has gone at \$10 per acre went cheap. What it has lost in virgin soil does not enter into consideration when it is mineral under it. —Cave-in-Rock.

Will be in Marion, Monday March 11, to buy good horses and mules. Bring in your stock and get the cash.

## MISS ANNIE DEAN

**Winner of the Gold Medal in the Annual Oratorical Contest at School Auditorium Feb. 22**

The annual Oratorical Contest of the Marion High School was held Friday evening, Feb. 22, as is the customary celebration of Washington's birthday.

The speakers and their subjects were:

Miss Annie Dean, "America Reunited."

Miss Fenwick Wathen, "America's Future."

Gray Rochester, "Life, and How to Live it."

Hollis Franklin, "Boys of '76."

Jones Gill, "A Type of True Americanism."

The speech of each contestant showed much thought and preparation and the subjects were well handled. It was a hard matter to tell who should get the medal, as we feel each and every one deserved one. We are expecting some of Marion High School pupils to become great men and women.

The judges were Rev. Hummel, of Princeton, Rev. Powell, of Louisville, and Rev. Thompson, of Henderson, who awarded the beautiful gold medal to Miss Annie Dean.

Miss Dean's ability has been well proven heretofore in both debates between Morganfield and Marion, and her teacher and friends have reasons to be proud of her.

The Marion Silver Cornet Band rendered some excellent music throughout the evening, which was very much enjoyed by all. This is their first appearance in public and we congratulate them on their progress. The members are as follows:

Percy Noggle, leader, Maurice Sutherland, Henry Stone, James Travis, Emmitt Koltinsky, Lacy Hughes, Will Clark.

### Lone Constable Ties up Railroad

Paducah Ky., Feb. 24.—(Special) Constable H. B. Tanner, of Barlow, Ky., actually took charge of the Illinois Central passenger station and all the cars of the local freight in yards at that place yesterday, under attachment for a judgment for \$40 against the Railroad. Station Agent Hughes was not permitted to get a scuttle of coal during the morning, and nearly froze, while the constable assumed possession of the key to the ticket rack, which he had taken the precaution to lock. He drove a freight crew away from loaded cars standing on the siding but at noon he compromised by permitting the agent to get a load of coal and continue selling tickets, while he held one car of the freight allowing the train to make up and started on its way to Paducah. He said he would give the company until Monday noon to pay up, or he would tie up all its business in Barlow.

He is about six feet high and will weigh about 145 pounds, and about 45 years old, clean shaved and has a rather slim face. When he left home he was wearing a light colored pair of pants and black coat and vest.

## JACKSON-GRAICE

**Lyon County Gentleman Married To Trigg County Lady Last Week are Known Here.**

Mr. Wm. R. Jackson, of Lyon county, and Miss Mary Grace, of this county, were quietly married last Thursday evening at the beautiful country residence of the bride's parents, Mr. and Mrs. A. H. Grace, on Muddy fork, four miles northwest of here, Rev. Cunningham, of Princeton, performing the ceremony. The wedding was a very quiet affair, only a few of the immediate members of their families being present.

Mr. Jackson is the son of C. W. Jackson, of Lyon county and is a very prominent and promising young farmer, his father being one of the leading farmers of Lyon county. He is also a brother of Mrs. Ben White of this place, and has many friends here where he has frequently visited. Miss Grace is a very attractive and popular young lady of this community, and has a host of friends in Cadiz, where she has spent a great deal of her time for the past few years.

Their friends here have been anticipating their marriage for some time, still no one knew of their intention at this time until after they were married and the announcement made. They had been sweethearts for quite a while.

We have not learned where they intend making their home—whether with the parents of the bride in this county are upon the farm of the groom's father in Lyon.

The Record joins many friends and admirers in extending to this happy young couple hearty congratulations. —Cadiz Record.

### Ira Clark Mysteriously Missing.

On about January 21, last, Mr. Ira Clark, who resided at the old Griffith homestead, near this city, left home in search of work, and after an absence of three days, Mrs. Clark received a letter from him dated at Providence, Ky., stating that he was going to Nebo, Ky., to get work, and since that time nothing has been heard from him.

He is about six feet high and will weigh about 145 pounds, and about 45 years old, clean shaved and has a rather slim face. When he left home he was wearing a light colored pair of pants and black coat and vest.

### A Present.

## NUNN-LAMB

**Miss Addie Nunn, of Rodney, and Mr. Claude Lamb, this City United In Marriage.**

On Feb. 25, 1907 at 2 o'clock at the home of the bride's father, Mr. Eli Nunn Mr. Claud Lamb and Miss Addie Nunn were married, Rev. W. T. Oakley, officiating.

Mr. Lamb is the son of Mr. and Mrs. John Wesley Lamb of this city. He has been employed as salesman by Taylor & Cannon, for the past two years. He has proven himself quite efficient and has won many friends. Miss Nunn has attended school here and has visited here frequently. She is a charming young lady always winning friends by her amiable manner. Mr. and Mrs. Lamb will go to housekeeping in Wm. Mott cottage in east Marion.

### A Business Reception.

On Saturday evening, Feb. 16th, at the residence of Mrs. Nina Howerton, a Business Reception was held by Mrs. W. N. Rochester and Mrs. Howerton, for the purpose of introducing the goods which they respectively represent. Mrs. Rochester, representing an agency for ladies wearing apparel, and Mrs. Howerton a line of hygienic toilet requisites. Mrs. R. L. Flanary, Mrs. J. G. Rochester, Mrs. R. L. Moore, Misses Nannie Rochester and Pearl Doss assisted in the several capacities of serving punch, reception committee and entertaining with music.

Between thirty and forty ladies of the city were received, aside from the business feature of the meeting all seemed to have had a fine time socially. The punch served by Mrs. Flanary of course, was enjoyed by all, but many of the ladies present, made their hostess glad by giving them nice orders.

### Received Payment From Government.

Horace Williamson, of View, and Richard E. Pickens, of this city, recently received payment from the government for horses taken from them by the Union army at the close of the civil war, over forty years ago. These soldiers were paroled at Washington, Ga., after Lee's surrender at Richmond, Va., and given their horses and side arms, but on arriving at Chattanooga, Tenn., their horses were taken from them and turned adrift. The government paid them \$125.00 each for the horses. And while it comes late is a very neat little sum for each to receive.

## DEAD STEER

**Knocks Man and Horse Into Creek and Both Are Drowned in Deep Water.**

Middlesboro, Ky., Feb. 24—Thrown from the track by the engine of a fast freight train, the body of a steer struck R. J. Goodwin, who was on a horse close by and knocked him and the horse into the waters of Cannan creek. Goodwin and the horse both were drowned.

Goodwin was driving several head

of cattle to his farm near Four Mile.

As he reached the railroad crossing

near Ferndale the train approached

at a rapid rate of speed. The cattle

were on the track and the train plowed

its way thru the bunch. Mr. Goodwin

was not on the track and seemed to be out harm's way.

The heavy engine picked up one of the steers, however, and threw it high

into the air. It fell against the

horse on which Goodwin was riding

and both were thrown over the embankment into the creek, which was

swollen from rain.

Mr. Goodwin was drowned and his

body was taken from the creek about

half mile below where the accident

happened. Goodwin was formerly

Circuit Court Clerk and was well

known in this section of the State.

### Ollie James Defines Wall Street.

Washington, Feb. 25.—In a speech in the House the other afternoon Ollie James gave his definition of Wall street. It has been quoted extensively and has made a hit. He said:

"Wall street is a place where a man is a bull one day and a bear the next and a hog every day."

When he propounds this definition the members of the House, Republicans and Democrats alike, joined in loud laughter.

### Covers Six Acres

The towboat Spague, of Pittsburgh, passed down this week on her way to New Orleans with the largest tow she has ever carried. She has 44 loaded barges, each carrying 33,000 bushels of coal. The fleet covers six acres.—Uniontown Telegram.

## COMET MAY HIT EARTH

**Dangerous to World, Says Eminent Observer at Vesuvius.**

London, Feb. 23.—The Daily Mail publishes a Rome dispatch which reports Professor Matteucci, of the Vesuvius observatory, as declaring that towards the end of March the substance of the new comet, discovered by Marchette, will come in contact with the earth's atmosphere with consequences probably dangerous to the world.

The professor is of the opinion that the danger will be brief, but it may be acute. If the earth comes in collision with the comet's tail, the earth's atmosphere may possibly cause ignition and life will be destroyed.

### Farris—Cochran.

Miss Eva Farris, of Salem vicinity, and Mr. John W. Cochran, of this city, were married Sunday afternoon at two o'clock at the home of the bride's father, John Farris, Rev. T. C. Carter officiating. Only the immediate family was present, in fact the exact date of the wedding was not known to only a few immediate friends. Miss Farris is a charming young lady, and has many amiable traits of character which has won for her many friends here and around her own home. Mr. Cochran is a prosperous young farmer, the son of Mrs. Nannie Cochran, of this city.

The bride and groom came to Marion Monday morning where they were entertained at dinner by the groom's mother, just the family was present.

### Mrs. Willie Lamb Dies.

Mrs. Willie Lamb, wife of Jack Lamb, and daughter of Sam Gass, died Wednesday, Feb. 20, 1907, of consumption. She was about twenty years of age. She was a member of Sugar Grove C. P. church. The interment was at Pleasant Hill Friday.

## The Kid Engineer

By FRANK H. SPEARMAN

Copyright, 1908, by Frank H. Spearman

**W**HEN the big strike caught us at Zanesville we had two engineers and firemen on the payroll time had dried and sixteen-nine of these men were ed out. One brent just one stay with the company, that was Dad Hamilton.

"Yes," growled Dad, combating the protests of the strikers' committee, "I know it's wrong to your lodge. But I'll tell you now—an' I've told you before I am goin' to strike on the company so long as Neighbor is master-mechanic on this division; ain't a god-damn thing you might as well quit if you jaw here from now till Christ comes 'twon't change my mind nar a bit."

And they didn't change it. Through the calm and through the storm, and it stormed hard for awhile. Dad Hamilton, whenever we could supply him with an engineer, fired religiously.

No other man in the service could have done it without getting killed, but Dad was old enough to father any man among the strikers. Moreover he was a plant physically and energetic enough to move along through the heat of the crisis indifferent to the abuse of the other men. His gray hairs and his tremendous physical strength saved him from personal violence.

Our master mechanic, Neighbor, was another big man, six feet and inch in his stockings, and strong as a draw bar. Between Neighbor and the old fireman there existed some sort of a bond—a liking, an affinity. Dad Hamilton had fired on our division ten years. There was no promotion for Dad; he could never be an engineer though only Neighbor knew why. But his job of firing on the river division was sure as long as Neighbor signed the payrolls at the roundhouse.

Hence there was no surprise when the superintendent offered him an engine, just after the strike, that Dad refused to take it.

"I'm a fireman, and Neighbor knows it. I ain't no engineer. I'll make steam for any man you put in the cab with me, but I won't touch a throttle for no man. I laid it down, and I'll never pinch it again an' no offense to you, Neighbor, neither."

Thus ended the negotiations with Dad on that subject; threats and entreaties were useless. Then, too, in spite of his professed willingness to throw coal for any man we put on his engine, he was continually rowing about the green runners we gave him. From the standpoint of a railroad man they were a tough assortment; for a fellow may be a good painter, or a handy man with a jack plane, or an expert machinist even and yet a failure as an engine runner.

After we got hold of Foley, Neighbor put him on awhile with Dad, and the grizzled fireman quickly declared that Foley was the only man on the payroll who knew how to move a train. The little chap proved such a rascal he fed that I tried hard to get one of the eastern chums to come and run him. After a good bit of boasting we did get half a dozen more Reading boys for our new corps of engine men, but the East End of Reading kept all but one of them on their hands. That one we got because nobody on the East End wanted him.

"They're crimped the whole bunch," Foley said I, answering his inquiries. "There's just one fellow reported here—he came in on 5 this morning. Neighbor's had a little talk with him, but he doesn't think much of him. I guess we're out the transportation on that fellow."

"What's his name?" asked Foley. "Is he off the heading?"

"Claims he is; his name is McNeal"—"McNeal?" echoed Foley, surprised. "Not George McNeal?"

"I don't know what his first name is. He's nothing but a boy."

"Dark complexioned fellow?"

"Perhaps you'd call him that; sort of soft spoken."

"George McNeal, sure's you're born. If you've got him you've got a bird. He ran opposite me between New York and Philadelphia on the limited. I want to see him right off. If it's George, you're all right."

Foley's talk went a good way with me any time. When I told Neighbor about it he pinched up his ears. While we were debating in rushed Foley with the kid, as he called him.

As luck would have it, Neighbor put the boy on the 244 with Dad Hamilton, and Dad proceeded at once to make what Foley termed "a great roar."

"What's the matter?" demanded Neighbor roughly when the old fireman complained.

"If you're goin' to pull these trains with boys, I guess it's time for me to quit. I'm gettin' pretty old, anyhow."

"What's the matter?" growled Neighbor, still surlier, knowing full well that if the old fellow had a good reason he would have blurted it out at the start.

"Nothin's the matter, only I'd like my time."

"You won't get it," said Neighbor roughly. "Go back on your run. If McNeal don't behave, report him to me, and he'll get his time."

It was a favorite trick of Neighbor's. Whenever the old fireman got to "bucking" about his engineer the master mechanic threatened to discharge the engineer. That settled it. Dad Hamilton wouldn't for the world be the cause of throwing another man out of a job, no matter how little he liked him.

The old fellow went back to work mollified, but it was evident that he and McNeal didn't get on together. The boy was not much of a talker. Yet he did his work well, and Neighbor sat next to Foley he was the best man we had.

About a week later Foley came into the office one morning very much excited.

"Did you hear about the boy's getting pounded last night—George McNeal? It's a shame the way these fellows act. Three of the strikers piled on him while he was going into the postoffice and thumped the life out of him. The cowardly hounds to jump on a man's back that way!"

"Foley," said I, "that's the first time they've tackled one of Dad Hamilton's engineers."

"They'd never have done it if they thought there was any danger of Dad's getting after them. They know he doesn't like the boy."

"It's an outrage, but we can't do anything. You know that. Tell McNeal to keep away from the postoffice. We'll get his mail for him."

"I told him that this morning. He's in bed and looks pretty hard, but he won't dodge those fellows. He claims it's a 'free country,'" grinned Foley. "But I told him he'd get over that idea if he stuck out this trouble."

It was three days before McNeal was able to report for work, though he received full time just the same. Even then he wasn't fit for duty, but he begged Neighbor for his run until he got it. The strikers were jubilant while the boy was laid up, but just

The boy reached for his throttle lever, a rats of iron blows.

what Dad thought no one could find out. I wanted to tell the old growler what I thought of him, but Foley said it wouldn't do any good and might do harm, so I held my peace.

One might have thought that the injustice and brutality of the thing would have roused him, but men who have repressed themselves till they are gray headed don't rise in a hurry to resent a wrong. Dad kept as mute as the sphinx. When McNeal was ready to go out the old fireman had the 244 shin ing, but if the pale face of his engineer had any effect on him he kept it to himself.

As they rattled down the line with a long stock train that night neither of them referred to the break in their run. Coming back next night, the same silence hung over the cab. The only words that passed over the boiler head were "strictly business," as Dad would say.

At Oxford they were laid out by a Pullman special. It was 3 o'clock in the morning and raining hard. Under such circumstances a hour seems all night. At last Dad himself broke the unsupportable silence.

"He'd have waited a good bit longer if he had waited for me to talk," said the boy, telling Foley afterward.

"Heard you got licked," growled Dad after tinkering with the fire for the twentieth time.

"I didn't get licked," retorted George; "I got crushed. I never had a chance to fight."

"These fellows hate to see a boy come out and take a man's job. Can't blame 'em much neither."

"Whose job did I take?" demanded George angrily. "Was any one of those cowards that jumped on me in the dark looking for work on this engine?"

There was nothing to say to that. Dad kept still.

"You talk about men," continued the young fellow. "If I am not more of a man than to slug a fellow from behind, the way they slugged me, I'll get off this engine and stay off. If that's what you call men out here, I don't want to be a man. I'll go back to Pennsylvania."

"Why didn't you stay there?" growled Dad.

"Why didn't you?"

Without attempting to return the shot Dad pulled nervously at the chain. "If I hadn't been fool enough to go out on a strike, I might have been running there yet," continued George.

"Ought to have kept away from the

postoffice," grumbled Dad after a pause.

"I get a letter twice a week that I think more of than I do of this whole road, and I propose to go to the post office and get it without asking any body's permission."

"They'll pound you again."

George looked out into the storm. "Well, why shouldn't they? I've got no friends."

"Got a girl back in Pennsylvania?"

"Yes, I've got a girl there," replied the boy as the rain tore at the cab window. "I've had a girl there a good while. She's gray headed and sixty years old—that's my girl and if she can write letters to me I can get them out of the postoffice without a guard."

"There she comes," said Dad as the headlight of the Pullman special shone faint ahead through the mist.

"I'm mighty glad of it," said George, looking at his watch. "Give me steam now, Dad, and I'll get you home in time for a nap before breakfast."

A minute later the special shot over the switch, and the young engineer crowding the pistons a bit, started off the siding. When Dad, looking for the blind end brake man to look for the switch and swing on, called all clear, George pulled her out another notch and the long train slowly gathered headway up the slippery track.

As the speed increased the young man and the old relaxed into their usual silence. The 244 was always a free steamer, but George put her through her paces without any apology, and it took lots of coal to square the account.

In a few minutes they were pounding along up through the Narrows. The track there follows the high bank between the bluffs, which sheer up on one side, and the river bed, thirty feet below the grade, on the other.

It is not an inviting stretch at any time with a big string of gondolas behind. But on a wet night it is the last place on the division where an engineer would want a side rod to go wrong, and just there and then George's rod went very wrong indeed.

Halfway between centers the big steel bar on his side, dipping then so fast you couldn't have seen it even in daylight, snapped like a stick of licorice. The blind end ripped up into the cab like the nose of a swordfish, tearing and smashing with appalling force and fury.

George McNeal's seat burst under him as if a stick of giant powder had exploded. He was jammed against the cab roof like a link pin and fell sprawling, while the monster steel rail thrashed and tore through the cab with every lightning revolution of the great driver from which it swung.

It was a frightful moment. Anything thought or done must be thought and done at once. It was either to stop that train, and quickly, or to pound along until the 244 jumped the track and lit in the river, with thirty cars of coal to cover it.

Instantly—so Dad Hamilton afterward told me—instantly the boy, scrambling to his feet, reached for his throttle—reached for it through a rain of iron blows, and staggered back with his right arm hanging like a broken wing from his shoulder. And back again after it—after the throttle with his left; slipping and creeping carefully this time up the throttle lever until straining and twisting and dodging, he caught the latch and pushed it tightly home. Dad whistling vigorously the while for brakes.

Relieved of the tremendous load on the cylinder, the old engine calmed down enough to let the two men collect themselves. Rapidly as the brakes could do it, the long train was brought up standing, and George, helped by his fireman, dropped out of the cab, and they set about disconnecting—the engineer with his one arm—the mangled ends of the broken rod.

It was a slow, difficult piece of work to do in spite of their most active efforts the rain chilled them to the marrow. The train crew gave them as much help as willing hands could, which wasn't much, but by every man doing something they got things fixed called in their fragments just before daybreak and started home. When the sun rose George, grim and silent, the throttle in his left hand, was urging the old engine along on a dogtrot across the Blackwood flats, and so, limping in on one side, the kid brought his train into the Zanesville yards, with Dad Hamilton unable to make himself helpful enough, unable to show his appreciation of the skill and the grit that the night had disclosed in the great driver.

As they rattled down the line with a

long stock train that night neither of them referred to the break in their run.

Rapidly as the brakes could do it, the long train was brought up standing, and George, helped by his fireman, dropped out of the cab, and they set about disconnecting—the engineer with his one arm—the mangled ends of the broken rod.

It was a slow, difficult piece of work to do in spite of their most active efforts the rain chilled them to the marrow. The train crew gave them as much help as willing hands could, which wasn't much, but by every man doing something they got things fixed called in their fragments just before daybreak and started home. When the sun rose George, grim and silent, the throttle in his left hand, was urging the old engine along on a dogtrot across the Blackwood flats, and so, limping in on one side, the kid brought his train into the Zanesville yards, with Dad Hamilton unable to make himself helpful enough, unable to show his appreciation of the skill and the grit that the night had disclosed in the great driver.

As they rattled down the line with a

long stock train that night neither of them referred to the break in their run.

Coming back next night, the same silence hung over the cab.

The only words that passed over the boiler head were "strictly business," as Dad would say.

It was a frightful moment. Anything thought or done must be thought and done at once. It was either to stop that train, and quickly, or to pound along until the 244 jumped the track and lit in the river, with thirty cars of coal to cover it.

Instantly—so Dad Hamilton afterward told me—instantly the boy, reaching for his throttle—reached for it through a rain of iron blows, and staggered back with his right arm

Headache increased on reading or sewing in one of the most common reflex symptoms of eye-strain.

It is well-known fact that no muscle in the body can endure continuous contraction of the ciliary muscles, say for from eight to twelve hours daily.

The result is eye-strain.

Persons whose work necessitates much ocular labor should vary their duties with intervals of rest. In continued reading or sewing, it is well to desist at short intervals and fix the gaze on some distant object and close the lids repeatedly.

### JAMES IS HERO OF WASHINGTON.

### Olie, of Kentucky, Takes a Crack at Washington Street Car System and Strikes Popular Chord

Washington D. C., Feb. 12.—Olie James was the lion of Washington today. District of Columbia people, tired of the miserable service on some of the car lines, flocked to him to command him for his fight yesterday afternoon in behalf of 4 cent cash fares or eight tickets for a quarter.

Although he was temporarily defeated, it is believed he will at last get his proposition thru the House session.

The present fare is 5 cents cash and six tickets for a quarter.

In an eloquent speech, James declared that the street car companies of Washington, which cost originally not over \$2,000,000, have at least \$11,000,000 of water in them.

He added: "I do not believe that any sane man will dispute the proposition that they can carry passengers for 3 cents in the District of Columbia and make money, at that.

I believe they have the best street car service in the world, but let Washington start the fight. Let this congress start the fight in favor of a lower transportation rate. Start it right here in the District of Colum-

bia." (Loud applause)

### A Valuable Lesson

"Six years ago I learned a valuable lesson," writes John Pleasant, of Magnolia, Ind. "I then began taking Dr. King's New life Pills, and the longer I take them the better I find them." They please everybody. Guaranteed at Haynes & Taylor, druggist 25c.

### INVIGORATE THE DIGESTION

To invigorate the digestion and stimulate the torpid liver and bowels there's nothing so good as that old family remedy, Brondreth's Pills, which has been in use for over a century. This cleans the blood and imparts new vigor to the body. One or two in one might for a week will usually be all that is required. For Constipation or Lyspepsia, one or two taken every night will in a short time afford great relief.

Brondreth's Pills are the same fine laxative tonic pill your grandparents used and being purely vegetable are adapted to every system. Sold in every drug and medicine store, either plain or sugar coated.

It's a pleasure to tell our readers about a Cough Cure like Dr. Shoop's. For years Dr. Shoop has fought against Opium, Chloroform, or other unsafe ingredients commonly found in Cough remedies. Dr. Shoop it seems, has welcomed the Pure Food and Drug Law recently enacted, for he has worked along similar lines for many years. For nearly 20 years Dr. Shoop's Cough Cure containers have had a warning printed on them against Opium and other narcotic poisons. He has thus made it possible for mothers to protect their children by simply insisting on having Dr. Shoop's Cough Cure. Sold by Haynes & Taylor.

Kennedy's Laxative Cough Syrup. Safe and sure in its action; pleasant to take. Conforms to National Pure Food and Drug Law. Sold by J. H. Orme.

### 'WHISKY' COLD CURES.

### Danger of Using Alcoholic Mixtures or Coal Tar Tablets.

Laying aside all moral objections against filling up the system with whisky or drugs because one has a cold or cold, the dangerous physical effects should be sufficient to keep one from using these strong medicines.

A thoroughly scientific way to treat a cold and cold as well as a sensible method is to breathe Hyomei through the neat pocket inhaler that comes with ever outfit. The first breath of its healing medication relieves the irritation, and its continued use soon effects a thorough cure.

The best people in—always keep Hyomei in the house during the winter months, at the first symptoms of a cold or bronchial trouble, use the remedies, and prevent serious and lasting illness. The guarantee that—a give with every Hyomei outfit should convince you of its curative powers. A complete Hyomei outfit cost but \$1.00, extra bottles if needed 50c, and —a guarantee to refund the money if it does not give satisfaction.

### For Biliousness and Sick Headach

Take Orino Laxative Fruit Syrup. It sweetens the stomach, aids digestion and acts as a gentle stimulant on the liver and bowels without irritating these organs. rich gifts from His loving hand. Anthony was one of His lovely gifts to us. For thirty-four years he brightened and sweetened our lives here. Nor does death have any power over that. He lives with us still. Anthony, the kind, gentle, true, affectionate son, brother, friend and associate, is not buried beneath that mound, but enthroned in our hearts lives on on with us here, a blessing to call us up higher. Then is it not a goodness of God? May not sorrow bear us his blessing? The Psalmist says our burden is a gift, God's gift to us. God's gifts are always good. His love gave him to us, His love took him away. His love preserves to us his beckoning call. Blessed be the name of the Lord.

Another reason for submission and source of comfort is that we as believers shall meet again. We sorrow not as those who have no hope. Is it not sweet to think hereafter, when the spirit leaves this sphere, love with deathless wing shall waft her to those she long hath mourned for here? Hearts from which 'twas death to sever, eyes this world can never restore, there as warm, as bright as ever shall meet us and be lost no more.

When weary we wander, asking of earth and heaven, Where are they beneath whose smiles we once lay basking, blest and thinking bliss would stay? Hope still lifts her

radiant finger, pointing to the eternal home, upon whose portal yet they linger, looking back for us to come. Alas! Alas! doth hope deceive us? Shall friendship, love, shall all those ties that bind a moment, and then leave us, be found again where nothing dies? Oh, if no other boon were given to keep our hearts from wrong and stain, who would not try to win a heaven, where all we love shall live again?

### CHURCH NOTES

There will not be any services at the Presbyterian church next Sunday the pastor will fill an appointment at Tolu.

??

There will be services at the Presbyterian church at Tolu next Sunday, both morning and night. Services conducted by Rev. B. Andres, of Marion.

??

The text of the sermon at the Presbyterian church last Sunday was James 1:22, "Be ye doers of the word, and not hearers only, deceiving your own selves." The author of this epistle was the brother of our Lord, and he doubtless was impressed with the remarks that Christ so often made concerning the hearers that do not hear. The parable of Math. 7:24, the sower, and that of the two kinds of foundations for a house are illustrations of the way men hear the word of God, 13:3-23. There are three attitudes of man toward the word. First, he could hear it. Second, he should look into it. Third, he should do it. The word for hear in the Greek is an unusual word in the N. T. It is common in classical Greek, however. It means to listen attentively. Some people go to church but do not listen to the word as it is preached to them. Some let the cares of this world and the deceitfulness of riches destroy their heart faculties, and they become unfruitful hearers of God's word. We are to be hearers that will hear, for, "Blessed are they who hear the word of God, and keep it. Blessed are your ears for they hear and your eyes for they see," said Christ. (See notes.) We should look into the word. James likens the word to a mirror. What would a house be without a mirror? A man needs a mirror to see if he is clean and tidy, so God's word reflects all of our imperfections. If some men did not look into the mirror any more than they look into the word of God, they would become so filthy and vile that they would be banished from society. He who does not look

into the perfect law of liberty, will become so vile as to be exiled from heaven. We should do the word. The epistle of James is full of good suggestions to those who work for Christ. In this passage he gives a description of pure religion. Pure religion and undefiled before God our Father is this: "To visit the fatherless and the widows in their afflictions, and to keep himself unspotted from the world."

The correct rendering of the 25th verse is: "But he that looketh into the perfect law, the law of liberty, and so continueth, he being not a hearer that forgetteth, but a doer that worketh, this man shall be blessed in his doing." These words were written to believers, so it is assumed that they believed God's word. The stress here is laid on the hearing, reading and doing of that word. "To him who knoweth to do good and doeth it not, to him it is sin." James 4:17. "Blessed are your eyes for they see, and your ears for they hear."

## NOTICE

I am in business that keeps  
me out of Marion and Crit-  
tenden county, except on  
Sunday. So I have turned  
my back taxes and fees over  
to J. M. Freeman to collect, I  
have given orders to collect  
regardless of consequence, as  
I must get this matter off my  
hands. A number who have  
paid Mr. Flanary, still owe  
me taxes, and from now I  
shall show you no favors, ex-  
cept to collect. Don't wait to  
see me for you may not see  
me at all, but hunt up Mr.  
Freeman and settle up. This  
is the last notice I shall pay  
for, so govern yourselves ac-  
cordingly. This Feb. 25th,  
1907. JAS. W. LAMB,  
Ex-Sheriff.

## BIBLE CLASS

CONDUCTED BY REV. J. F. PRICE.

The Bible class had a good session Sunday afternoon. The next lesson is Gen. xxi.-xxv., inclusive.

### HELPS TO STUDY

Eliezer, Abraham's servant, was the son of Maeek (a feminine name). Doubtless she lived in Damascus and was obtained by Abraham on his journey from Haran to Canaan as he passed through Damascus. Hence his son was called Eliezer of Damascus.

### KADMONITES.

The Kadmonites was one of the Oriental tribes dwelling east or northeast of Palestine. They were doubtless descendants of Ishmael (by anticipation) as Kadmonite is derived from Kedemah, who was one of Ishmael's sons, Gen. 25:15. They were to dwell "in the face of their brethren," Gen. 16:12, which, in Oriental parlance was east. Kedemah means east and corresponds with this.

### KENIZZITES.

These were the sons of Kenaz, one of the descendants of Esau, Gen. 36:15-42. They were adopted into the Israelite nation. How? See Gen. 17:12; Ex. 12:48, 49. Caleb and Othniel belonged to this tribe, Josh. 14:6, 14; 15:17; Judges 1:13; 2:9; Num. 13:6; Josh. 15:13, 17; Num. 32:12. They were adopted into the tribe of Judah and became part of that tribe.

### KENITES.

They were a tribe of the Midianites. Midian was Abraham's son by Keturah, Gen. 25:2. The above mentioned three tribes were all spoken of by way of anticipation. In the time of the wilderness wandering they were found in the Sinaite peninsula, Num. 10:29. This is the family into which Moses married, Ex. 2:15-21; 3:1 18-7-27; Num. 10:20. They went with the children of Israel to Palestine, Judges 1:16. Some of them dwelt in the southern part of Palestine, Judges 1:16, but Heber had moved to the northern part, Judges 4:11. Some of them were in the southern part in Saul's time, 1 Sam. 15:6. They were spared because of the kindness shown to the Israelites, 1 Sam. 15:6; 27:10; 30:29. The Rechabites, the great temperance tribe of the Bible, were descended from them, 1 Chron. 2:55; Jer. ch. xxxv.

### TOPICS FOR STUDY

- 1 First feast made for Isaac.
- 2 First cradle hymn.
- 3 Ishmael's treatment of Isaac. What traits of character are shown?
- 4 Hagar sent out from Abraham's home.
- 5 Ishmael's first marriage.
- 6 Covenant between Abraham and Abimelech.
- 7 Beersheba.
- 8 Abraham offering Isaac.
- 9 The covenant renewed, Gen. xxii.
- 10 Who was Milcah? Gen. 22:20-23.
- 11 Nahor's tribe in Haran.
- 12 Sarah's death and burial.
- 13 The Hittites.
- 14 The first recorded use of money.
- 15 Machpelah.
- 16 Isaac's wife--who she was and how he got her.
- 17 Customs brought out in Chapter xxiv.
- 18 Abraham's second marriage.
- 19 Abraham's will.
- 20 Abraham's death and burial.
- 21 Where Isaac was offered up.
- 22 Genealogy of Ishmael.
- 23 Genealogy of Isaac.
- 24 The birthright.

Study these five chapters well with an inquiring, prayerful spirit.

### THE PROMISED HEIR.

After hope had been deferred twenty-five years, Abraham's steadfast trust was rewarded by the birth of Isaac. This was a miracle (Rom. 4:17-22) and was typical of the supernatural birth of the seed of Abraham, who was also the son of God according to his divine nature. The place of Isaac's birth was Beersheba. The time 1897 B.C., Abraham being one hundred and Sarah ninety years old. According to the custom of ancient times, a child was weaned at a later age than with us, 1 Sam. 1:23. Isaac was weaned probably when three years old. The name Isaac (Laughter) was given him in commemoration of the laugh of Abraham.

## A Doctor's Medicine

Ayer's Cherry Pectoral is not a simple cough syrup. It is a strong medicine, a doctor's medicine. It cures hard cases, severe and desperate cases, chronic cases of asthma, pleurisy, bronchitis, consumption. Ask your doctor about this.

"I have used a great deal of Ayer's Cherry Pectoral for coughs and colds on the chest. It has always done me great good. It is certainly a most wonderful and effective medicine." — MICHAEL J. FITZGERALD, Headford, N.J.

ham, and also that of Sarah, when her birth was promised, Gen. 17:17; 18:12, and also because, at his birth, his parent's mouths were filled with laughter and their tongues with singing (Gen. 21:6, 7).

### SEARCH QUESTION

1 What is remarkable about the site where Isaac was offered up? Gen. 14:18-20; 22:2-2 Sam. 25:16-18; 1 Chr. 21:15, 18, 2 Chr. 3:1.

2 Who was this angel? Gen. 22:12.

3 Why insert Nahor's family in the narrative? Job 32:2.

4 What woman did Abraham send for? Gen. 23:23.

5 What two sets of promises are made in Gen. 22:17, 18. Gal. 3:29 refers to v. 18.

6 The age of how many women are told in the Bible.

7 Why did Abraham purchase Machpelah if the land belonged to him?

8 On what grounds was Abraham called "The Friend of God?"

9 What is the derivation and significance of the word Beersheba?

10 What can we learn from Abraham making a covenant with Abimelech?

11 What is the special meaning of the term, "the Lord, the everlasting God," and its use here?

12 Was Jacob entitled to the birthright by right naturally, or by divine selection?

### Beware of Ointments for Catarrh that Contain Mercury

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you and get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free. Sold by druggist. Price 75c. per bottle.

Take Hall's Family Pill for constipation.

### Investing in a Boy

There is no finer monument that a rich man can put his money into than a life. Take a poor boy who aspires to do something; one that will make honest use of the advantage that is provided him; direct him in some special line of life, educate him in it, stand by him as long as his course is straight, clean and upward; as long as he preserves the ambition to be something and to take care of himself. Then, if he is a success, which he is likely to be, there is an extension of the benefactor's life far into the future.—Ohio State Journal.

### Men Past Sixty in Danger.

More than half mankind, over sixty years of age suffer from kidney and bladder disorders, usually enlargement of prostate gland. This is both painful and dangerous, and Foley's Kidney Cure should be taken at the first sign of danger, as it corrects irregularities and has cured many cases of this disease. Mr. Rodney Burnett Rock Port, Mo., writes: "I suffered with enlarged prostate gland and kidney trouble for years and after taking two bottles of Foley's Kidney Cure I feel better than I have for twenty years, although I am now 91 years old." ## STURGIS

[STURGIS NEWS DEMOCRAT]

Agents Johnson, of Morganfield, and John Berry, of Sturgis, went to Marion one night last week to attend a business meeting.

County Clerk C. E. Weldon, son Harry and daughter Mary, of Marion, were guests of Mr. and Mrs. Hines on Adams street Sunday.

Rev. J. T. Rushing, of Henderson, is here in the midst of a revival service at the M. E. church. He is a very able man and is having a full and crowded house every night.

E. H. Long shipped 180,000 brick to DeKoven last week from his brick yard here. Mr. Long has the best equipped brick and tile plant in this end of the state and has an immense trade in the county outside of his foreign trade. Sturgis brick and tile are in demand all the time.

The bright little seven-year-old daughter of Mr. and Mrs. Bob Adamson, of near Bell's Mines, was burned to death last Wednesday evening. We did not get particulars as to just how she caught fire, but learned that three times before, she had been rescued from the flames. She was buried Thursday at Bell's Mines cemetery.

Miss Nellie Shaw has been visiting Miss Lula and Nell Brooks for several days.

Mrs. Robert Deboe and children, of Uniontown, passed through the city Sunday en route to Marion and Crayneville to visit relatives.

Early Monday morning Attorneys J. Mack Thompson and P. H. Winston, Wm. Winston, W. D. Wallace, H. H. Smith, agent W. L. Venner, of Marion, loaded a wagon with cots, bedding, cooking utensils and provisions abundant, with A. W. Omer for the teamster and started for Geiger and Stoke lakes for a week's duck hunt. It is said the game is plentiful and much is going to be expected of them.

Chas. Hines, one of the most affable gentlemen in town, handed us a beautiful bright silver dollar for the News Democrat Monday. Mr. Hines is one of the good citizens from the lovely little city of Marion, that we may consider ourselves fortunate in persuading to Sturgis.

### Hunting for Trouble.

"I've lived in California 20 years, and am still hunting for trouble in the way of burns, sores, wounds, boils, cuts, sprains, or a case of piles that Buckleman's Arnica Salve won't quickly cure," writes Charles Walters, of Alleghany, Sierra Co. No use hunting Mr. Walters; it cures every case. Guaranteed by Haynes & Taylor's 25c.

### WESTON

Miss Bertie Hughes has returned after a fortnight visit to Mrs. A. H. Walker of Bells Mines.

Mr. Wayne Smith of St. Louis Mo. is the guest of his sister Miss Josephine and Mrs. Otto Hughes.

### Joe Ben Champion Wins Big Case.

The jury, which had under consideration the guilt or innocence of John Northcott returned to the courtroom Saturday morning about 9 o'clock after having deliberated on the case for a period of sixteen hours and rendered a verdict of not guilty. The case which ended in an acquittal for Northcott, had been on trial for the past week and has created a great deal of interest.

John Northcott was arrested for the crime of murdering an old man in Rava in August 1905 and had been in jail for a period of eighteen months being unable to secure bail.

The murdered man was an old man who lived to himself in that city and was known to have a large sum of money hid in his house, and on the night of August 16 was murdered by some one. Suspicion pointed to the defendant and on the suspicion and several minor facts as gleamed John Northcott was arrested at Denison, Texas, a short time afterwards by Deputy United States Marshal John Bridges and lodged in jail in this city where he has been up until the trial of the case and his acquittal.

The jury returned in the courtroom just as the court crier, R. L. Sanders was announcing the opening of the court.

Northcott is a happy man and immediately after being released the prisoner spent part of the day in seeing the sights of the town.

J. B. Champion assisted by Cal Russell in the defense of the case and it is said by many of the older attorneys of the local bar that the efforts made by Mr. Champion was one of the finest ever heard in the local court room.—The Daily Ardmoreite, Ardmore, I. T.

### Endorsed by The County.

The most popular remedy in Oregon and the best friend of my family, writes W. M. Hayes, editor and publisher of the Oregon Journal, Gilkesville, New York, is Dr. King's New Remedy. It has proved to be an infallible cure for coughs and colds, making short work of the worst of them. We always keep a bottle of the house. I believe it to be the most valuable prescription known to lung and throat diseases. Guaranteed to never disappoint the taker. Take Dr. Orme's Druggist Price 25c and Dr. King's Trial bottle free.

### In Demand Always

Prof. M. C. Wright, the old faithful teacher of the county, has been persuaded to go to Lexington to teach a spring term of school. He is well known as a splendid teacher in both the counties and our Crittenton brethren have taken advantage of an opportunity to borrow him for a short while. Here's hoping they will treat him well as he deserves well and return him soon.—Livingston Banner.

Piles get quick relief from Dr. Shoop's Magic Ointment. Remember it's made along for piles—and its works with certainty and satisfaction. Itching, prolapsed or protruding or blind piles disappear like magic by its use. Try it and see. Haynes & Taylor.

## Marion Milling Company's Products.

The packer's name on a food article means a great deal to the consumer, also to the maker of the product if it has merit.

The name Marion Milling Co. stands back of it—it means that the maker is proud to use his name in connection with it product.

The name ELK and CROWN is on all the flour products of the Marion Milling Co., because the makers are positive their flour is clean, honestly made, wholesome and satisfactory and that the product is a credit to their name.

When you buy the Marion Milling Company's flour products you know what you are getting, and you know that their guarantee behind it means something.

When you order from your grocer specify the Marion Milling Company's Flour and help a home industry, and same will be appreciated by your friends.

#### Dont Put Off

"Don't trifle with a cold," is good advice for prudent men and women. It may be vital in the case of a child. Proper food, good ventilation, and dry, warm clothing are the proper safeguards against colds. If they are maintained through the changeable weather of autumn, winter and spring the chances of a surprise from ordinary colds will be slight. But the ordinary light cold will become severe if neglected, and a well established cold is to the germs of diphtheria what honey is to the bee. The greatest menace to child life at this season of the year is the neglected cold.

To stop a cold with "Preventives" is safer than to let it run and cure it afterwards. Taken at the "sneeze stage," Preventives will head off all colds and Grippe, and perhaps save you from Pneumonia or Bronchitis. Preventives are little toothsome candy cold cure tablets selling in 5 cent and 25 cent boxes. If you are chilly, if you begin sneeze, try Preventives. They will surely check the cold, and please you. Sold by Haynes & Taylor.

#### An Effective Riddle.

On one occasion when he was busy President Lincoln received a delegation of men who were endeavoring to hurry the passing of some petty bill. When they entered Lincoln looked up gravely and said: "If you call the tail of a sheep a leg how many legs will the sheep have?" "Four," said the spokesman. "No," replied Lincoln. "It would only have four. Calling the tail a leg wouldn't make it one."

The delegation departed in discomfiture.—Pittsburg Post.

#### Wise Counsel From the South

"I want to give some valuable advice to those who suffer with lame back and kidney trouble," says J. R. Blankenship, of Beck, Tenn. "I have proved to an absolute certainty that Electric Bitters will positively cure this distressing condition. The first bottle gave me great relief and after taking a few more bottles, I was completely cured, so completely cured that it becomes a pleasure to recommend this great remedy." ## Rising From the Grave

A prominent manufacturer, Wm. A. Fertwell, of Laramie, N. C., relates a most remarkable experience. He says: "After taking less than three bottles of Electric Bitters, I feel like one rising from the grave. My trouble is Bright's disease, in the Diabetes stage. I fully believe Electric Bitters will cure me permanently, for it has already stopped the liver and bladder complications which have troubled me for years." Guaranteed at Haynes & Taylor's druggist. Price only 50c.

## VACATION TIME

By Byron Williams.

"Sister" and I were just jolly chums,  
Up in Wisconsin at "Meadow Farm".  
She was my "partner," a slender reed,  
I was her "brother" to shield from  
harm.  
"Sister" and I!  
  
"Sister" and I were like two old pals,  
Up in Wisconsin, those summer hours,  
Free and glad in the nature nooks,  
Far to the north with its vine-decked  
flowers.  
"Sister" and I!  
  
"Sister" and I told our sacred dreams,  
Skimming the bayous, and then away,  
Deep in the wood where the great elms  
grow.  
Joyously we romped till the dusk of day—  
"Sister" and I!  
  
"Sister's" blue eyes were like summer  
skies,

Sapphires aglow! And her lips were  
red!  
Lush like the ripple upon the ford!  
Hands that were warm when by rough  
paths sped  
"Sister" and I!  
  
"Sister" and I are in town again—  
Here, I am told, she is "Miss Frazer".  
"Sir, there's a difference 'twixt this and  
that,  
Now we're in town and vacation's over,  
"Sister" no more!"  
  
"Sister" and I. Ah, those happy days,  
When we were chums where the  
raphy's charm  
Filled our two hearts with a strange new  
joy.  
Up in Wisconsin at "Meadow Farm"—

## I KNOW A NICHE

By Byron Williams.

I know a niche where the blown lake laps  
Upon a rock-strewn shore,  
Where the killdeer pipes on his mournful  
lute.  
And the woods are rich in lore!  
  
I know a bay near the fragrant wood,  
Along the water's rim,  
Where the jack-snipe skip on the shelving sand  
And the jocund curlew skims!  
  
I know a spot on the pulsing wave,  
Beside the moss-green weeds,  
Where the hooked batrachian fears to  
swim.  
And the leaden sinker leads!  
  
I know a hole where the pickrel lie,  
Down in the nectared deep,  
Where the bar slopes sheer from a shal-  
low shore  
And the minnows dart and leap!  
  
I know a place where the sunrise lights  
Are yellow shafts of gold.  
Where the sunset tints are of heaven's  
blend  
From a godly artist's mold!

## OF PUBLIC FUNCTIONS

Some Things Are Essentially of a Governmental Nature.

Collecting Customs, Maintaining the Army and the Police, Are Among These, but Not Such Undertakings as the Telegraph, the Telephone, the Street Cars or Gas and Electric Lighting—True Nature of a Public Franchise.

By ARTHUR WILLIAMS,  
President National Electric Light Association.

Some things are so essentially of a governmental nature that it would be fatuous to consider them from the standpoint of private ownership. Among these are the collection of customs, the maintenance and direction of the army and navy and the police power. In other words it is the end rather than the means that should be sought, and municipal and private ownership are often on equal terms without the violation of any economic principle.

The maintenance of public highways and sewers is usually a public function, but the country abounds in examples, every whit as satisfactory, of private ownership and operation. With water the importance to the community lies not in its ownership, whether public or private, but rather in its quality, quantity and price. Many of the most satisfactory waterworks of this country and Europe are owned privately.

Beyond these there is a class of public utilities which experience has shown should lie exclusively within the domain of private enterprise. The telegraph, telephone, transportation, gas and electric light undertakings offer examples. The ownership of these by the community is advocated by some on the ground that they are necessities of modern life, by others because they partake of the nature of monopoly. It does not appear that either is a sufficient reason. These are facilities and conveniences, not necessities. The latter consist of simple dwellings, food, raiment and means of warmth in winter. If our necessities are to be municipalized, we should begin with the butcher, grocer, baker and coal dealer, whose percentage of profits far exceeds that of any of the corporations in the so called public service.

Monopoly—regulated monopoly—is not necessarily opposed to the public interest. It is advantageous to all to have one telephone system, that from one point all may be conveniently reached; to have one street car system with universal transfers, making unnecessary any relation between one's home and place of work; to have a single gas or electric light works, preventing the waste of small plants and organizations and securing by the larger development increased reliability and improved quality in the service.

A franchise merely permits a public service corporation to share with others the use of the streets for the delivery to its customers of the commodity it supplies—a right that is enjoyed by every other industry. The difference is merely one of method. Were electricity delivered in storage batteries and gas in tanks—conceivable ways—no franchise would be required. Instead of using horses and wagons, which blockade the streets and make street cleaning a problem, deliveries are made beneath the surface without dirt, noise or other objectionable features.

It is through the exercise of this right that we hear of the confiscation of public property. Yet the public has not parted with its title to the streets nor its right to occupy them for any purpose or in any manner it may desire. It has simply permitted a service company to become a tenant, for which, in the form of franchise and other taxes, the company pays a high rent. Substantially the city is the landlord, possessing the power of arbitrarily determining, in the form of these taxes, what rent it shall receive. And this rent lessens proportionately the individual taxation.—Moody's Magazine.

**Typical Case of City Bookkeeping.**  
The authorities of Lakewood, O., have charged the city \$55 a year for the street lights supplied by the municipal plant. After looking at their tax bills some of the citizens came to the conclusion that this sum did not represent all the cost and called in a firm of expert accountants, who ascertained that the actual annual cost per arc had been \$129.56 for the seven years the plant had been in operation, although the lights had been run on the moonlight schedule. As a private company offers all night service for less than half that amount, the experiment is not regarded as a success, except by the lighting committee.

**Hard Luck of English City Strikers.**  
The experience of the employees of the municipal street railway of Hallfax, England, is not such as to encourage the idea, promulgated by our yellow journals, that cities are necessarily an easy mark. These employees struck, expecting popular support, which was not forthcoming. Their places were promptly filled, arbitration was refused, and the new men were retained when the strike was over.

## Greenfield, Ind.

The city council is considering the necessity for a general overhauling and installation of new machinery in the municipal electric light plant in this city. Frequent breakdowns recently have left the city in darkness.—Electrical World.

### New Majestic Malleable and Charcoal Iron Ranges

The MAJESTIC MALLEABLE and steel range as formerly turned out by the Majestic people has been considered throughout the country as par excellence and far ahead of any other range made. But with the NEW CHARCOAL IRON BODY in place of Steel making it double its value, and the fact that it is the only range in existence made of Malleable and Charcoal Iron you can readily see that if the quality is considered, the Majestic leads by a big margin. WE WANT YOU TO CALL at our store during the above date, and let us explain this new feature - CHARCOAL IRON BODIES. Let us explain why it is the best material for range bodies, and incidentally why it is not used on other ranges. We want you to call if you intend to buy or not as the information gained will serve you in the future.

#### Hot Coffee and Biscuits, Free

Come any day during the above mentioned date and have a free set of biscuits and hot coffee. Biscuits baked on a Majestic in three minutes while you wait.

#### Handsome Set of Ware, Freee

With every range sold during this demonstration we will give absolutely FREE a set of Majestic ware worth every cent of \$7.50. This will be on exhibition at our store. Everything useful, ornamental and durable. Come in and see it, and you will agree with us that it cannot be bought for a cent less than \$7.50 and it is cheap at that.

Come in any Day. You are Welcome whether you intend to buy or not.

### CHAPEL HILL

Our community was very much surprised to hear of the death of Mrs. Willie Long on last Saturday. Willie was a stepdaughter of John W. Belt. She was a nice and industrious young lady, and was well thought of in our community. Her remains were buried at Chapel Hill last Sunday evening. Bro. Thompson preached her funeral, and a large crowd was present on the occasion.

Charlie Clement and wife was visiting in Repton neighborhood last week.

Mrs. Lawrence Crider, of Marion, is the guest of her parents, Mr. and Mrs. H. S. Hill.

Mrs. Ida Enoch left Saturday for Paducah where she will join her husband, Bob Enoch. Mr. Enoch has a position on the rail road as a bridge carpenter.

Ed Long is in this beat on a visit. He came here from Sturgis.

Uncle George Douglas, of Union county, is visiting his friends and relatives in Chapel Hill.

J. N. Hill and family, of Crayneville, was the guests of Mr. and Mrs. Will Ward, of Marion, last week.

Our precinct has sown a good acreage of oats for this season, more than for many years. Also a good supply of grass and clover seed has been sown.

As a general thing, all of our farmers have burnt and sown a good supply of tobacco seed for the present year. Their expected plan is now that there will be an average crop of the weed put out in this precinct.

Those that have their seed sown for this season - Charlie Clement, H. S. Hill, Bigham, Bro. Adams & Co., Stovall & Co., T. M. Hill & Co., Dave Yandell, B. F. Walker, H. O. Hill, Cal Adams, Bill Elkins, Bart Brown & Co and Albert Walker.

I have a good stripper cow for sale. Will give about one gallon of milk a day, with increase by good attention. Price reasonable, apply W. H. Sturman.

Mrs. M. G. Jacobs is still no better.

### LEVIAH.

Fred Love has moved into his new house on East Avenue.

The Union church cemetery has been enlarged and the fence repaired.

Prof. M. C. Wright has a large and interesting school at Union.

E. B. Franklin is visiting his daughter, Mrs. Pearl LaRue, in Dexter, Mo. His grandchild, Miss Pearl Threlkeld, is with him.

Tilden Childress died at his home Feb. 20 of consumption after several months lingering illness. He was a young man of good habits and deservedly popular with all who knew him. He leaves a devoted wife and one child besides parents and friends to mourn his loss. He was buried at Tyner's Chapel.

Mrs. Eva Threlkeld visited friends in Marion a few days last week. An infant child of Mr. and Mrs. Henley was buried at Union Saturday.

Mr. and Mrs. J. A. Davidson are making their home with their son, Grant, in Marion, for the time being.

Mrs. Susan LaRue is visiting her son, Lucian, near Sheridan, this week.

Mrs. Irene Conyer and children are visiting her parents on Deer Creek.

Mrs. W. W. Watson left last week for Ft. Worth, Tex., where she will spend several weeks with relatives.

Fred Binkley is still confined to his room, improving slowly.

Chas. LaRue has a large and carefully selected stock of spring goods. He wants you to have them, and he wants your hides, eggs and chickens. Also that little note or account that is past due, he needs it now. Come up and settle at once.

Will be in Marion Monday March 11, to buy good mules and horses. Bring in your stock and get the cash.

Layne & Leavel.

### TOLU

There will not be any services at the Presbyterian church next Sunday, the pastor will fill an appointment at Tolu.

Mr. and Mrs. W. Hugh Watson and little son, Hugh Ivan, attended the closing of O. L. Vick's school at Dixie, last Friday.

J. Belt, of Lola, spent several days last week with friends in our town.

Mrs. Woolf visited relatives in Salem last week.

Joe Taylor and family left for Missouri, Tuesday, selling his town property to our miller, J. T. Woolf.

Mrs. McAmis is on the sick list.

Mrs. M. M. Fowler, of Carrier Mills, Ill., visited her sister, Mrs. J. A. Wheeler, last week.

There will be services at the Presbyter church at Tolu next Sunday, both morning and night. Services conducted by Rev. B. Andres, of Marion.

C. E. Thomas attended the closing of J. C. Hardin's school at Lima Wednesday. A short program was given by the pupils, which all seemed to enjoy. This was Mr. Hardin's first school, and it being in his home district, the words of praise from pupils and patrons speak well for him. He has been unanimously asked to take the school again next year.

### REPTON

Farmers in this section were beginning to wear a smile until the snow fell, and then they put their long faces on again.

Those that are on the sick list are improving slowly.
